

A Horse's Tale Colonial Cards

To make colonial cards print 2 sets of each image sheet (a total of 4 sheets). Laminate each sheet separately. You should have 4 sheets of laminated cards. Carefully cut the images into individual cards using the black lines as guidance. You now have a set of 24 colonial playing cards. Students can play games similar to Go Fish or Match Game. A fun way for young students to remember the colonial terms they heard from the story!
